

REISSUE APPLICATION DECLARATION BY THE INVENTOR

Docket Number (Optional)

PM 98.076/3

As below named inventor, I hereby declare that:

My residence, mailing address and citizenship are stated below next to my name.

I believe I am the original, first and sole inventor (if only one name is listed below) or an original, first and joint inventor (if plural names are listed below) of the subject matter which is described and claimed in patent number 6,603,313, granted on August 5, 2003, and for which a reissue patent is sought on the invention titled REMOTE RESERVOIR RESISTIVITY MAPPING, the specification of which

- ☐ is attached hereto.
- ☒ was filed on March 11, 2004 as reissue application number 10/798,248 and was amended \_\_\_\_\_  
(if applicable)

I have reviewed and understand the contents of the above identified specification, including the claims, as amended by any amendment referred to above.

I acknowledge the duty to disclose information which is material to patentability as defined in 37 CFR 1.56.

I verily believe the original patent to be wholly or partly inoperative or invalid, for the reasons described below. (Check all boxes that apply.)

- ☐ by reason of a defective specification or drawing.
- ☒ by reason of the patentee claiming more or less than he had the right to claim in the patent.
- ☐ by reason of other errors.

At least one error upon which reissue is based is described below. If the reissue is a broadening reissue, such must be stated with an explanation as to the nature of the broadening:

SUPPLEMENTAL DECLARATION

This is a supplemental declaration by me as the below named inventor, which is being submitted in order to overcome a rejection under 35 U.S.C. 251. The original declaration failed to identify at least one error that is relied upon to support the reissue application. I declare that this oversight occurred without any deceptive intent on the part of the applicant. The error relied upon by the applicant to support the reissue application is as follows:

The original patent is believed to be partly inoperative because the patentee claimed less than he had a right to claim in the patent. Accordingly, the reissue is a broadening reissue, the nature of which is as follows:

The original patent's claims are method claims that contain steps that can be performed in different countries, thereby affecting coverage of the claims. For example, in Claim 1, the "determining" steps and the "processing" step may possibly be interpreted to allow them to be performed anywhere, whereas the "activating" step and the "measuring" step suggest performance where the survey is being conducted. The claims added in the reissue application address this problem.

I also declare that the amendment to the specification filed concurrently with this declaration was reviewed by me and arose without any deceptive intent on the part of the applicant.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.

Signed at Houston, Texas on July 11, 2006.

X Leonard J. Srnka
